Read the text

Coca-Cola is enjoyed all over the world billion gallons are sold every year in over one hundred and sixty countries . The drink was invented by Dr John Pemberton in Atlanta as a health drink on 8 May 1886 but it was given the name Coco-Cola by his partner Frank Robinson because it was originally made from the coca (cocaine) plant . In the first year only nine drinks a day were sold.

The business was bought by a man called Asa Candler in 1888 and the first factory was opened in Dallas Texas in 1895 . Coca-Cola is still made there . Billions of bottles and cans have been produced since 1895 , but the recipe is still kept secret.

Diet Coke has been made since 1982 and over the years many clever advertisements have been used to sell the product . It certain that Coca-Cola will be drunk far into the twenty-first century.

People

the great communicators

we can communicate with other people in many different ways. We can talk and write and we can send messages with our hands and faces. There is also the phone (including the mobile) the fax and e-mail. Television , film, painting and photography can also communicate ideas.

Animals have ways of exchanging information too. Bees dance and tell other bees where to find food . Elephants make sounds that humans can't hear. Whales sing song. Monkeys use their faces to show anger and love. But this is nothing compared to what people can do. We have language – about 6000 languages in fact. We can write poetry , tell jokes make promises explain, persuade , tell the truth or tell lies. And we have a sense of past and future , not just present.

Communication technologies were very important in the development of all the great ancient societies:

Around 2900 BC paper and hieroglyphics transformed Egyptian life.

The ancient Greeks loved the spoken word. They were very good at public speaking , drama and philosophy. The Romans developed a unique system of government that depended on the Roman alphabet.

In the 14th century the printing press helped develop new ways of thinking across Europe.

Radio film and television have had a huge influence on society in the last hundred years. And now we have the internet which is infinite . But what is this doing to us ? We can give and get a lot of information very quickly. But there is so much information that it is difficult to know what is important and what isn't . Modern media is changing our world every minute of every day

Read the text again and answer the questions

Which animals are mentioned ? What can they do?

Bees dance and tell other bees where to find food. Elephants make sounds that humans can't hear . Whales sing song. Monkeys use their faces to show anger and love.

What is special about human communication? What can we do ?

We can communicate with other people in many different ways. We can talk and write and we can send messages with our hands and faces. There is also the phone the fax and e-mail . Television , film , painting and photography can also communicate ideas.

Which three forms of media are mentioned in the last paragraph?

Radio , film and television.
